WORK HISTORY

Freelancing

(01/ 2023 – Present)

- Working on Frontend projects with a focus on React.

Frontend Developer

Rapidfacture GmbH, Bavaria, Germany

(01/ 2022– 12/ 2022)

- Unleashed the power of full-stack development on Automation Pro, an all-in-one software solution designed specifically for traditional metal industry factories. This transformative tool integrated ERP, CRM, CAD, CAM, and 3D functionalities, enhancing overall operational efficiency.
- Spearheaded the implementation of a customized planning tool, streamlining task management with its intuitive drag-and-drop functionality. Notably, progress was automatically saved and persisted across sessions, facilitating easy sharing through JSON files., team building, and actively participating in recruitment efforts to assemble a high-performing development team.
- Technology used: JavaScript, Reactjs/Angularjs, Nodejs/Expressjs, Babylonjs, MongoDB/Mongoose

Frontend Developer

Distance Academia – Pristina, Kosovo

(01/ 2021– 12/ 2021)

- Invest lift Technology Company, Calabar, Cross River: Created captivating User Interfaces and mockups for an online course platform delivering technology and engineering courses in Albanian. Refactored React Class Components into efficient React Function Components.
- Resolved bugs, conducted code refactoring, and optimized performance. Contributed to building new features, fueling platform growth. Technology used: JavaScript, React.js, CSS/SCSS, Styled-Component

EXECUTIVE SUMMARY

Highly skilled and passionate Frontend Developer with more than 3 years' expertise in JavaScript, React.js, Node.js, and MongoDB. Proven track record in creating intuitive interfaces, streamlining task management, and revolutionizing product visualization. Proficient in refactoring code, resolving bugs, and optimizing performance.

Blue Card eligible for Germany – Earliest availability in Germany within one month.
