JOSHUA HORSFALL

Full-Stack Software Engineer

PROFILE

A Full-Stack Software Engineer with 5+ years of experience, I excel at delivering robust solutions using technologies like TailwindCSS, JavaScript, React, Sveltekit, and Python. I have a proven track record of leading teams to success and implementing efficient CI/CD practices. My passion for continuous learning drives me to deliver high-quality projects on time. I am committed to driving innovation and exceeding expectations.

BUILDING THE FUTURE!

Full Stack Developer

10/2019 – 08/2022

Chesroc Group, Nigeria

- Led a team responsible for the architecture, design, and development of 4+ web products and the management and improvement of existing systems.
- Developed Taski, a web app that improved employee productivity by providing 1-5 star ratings, using Svelte-kit, Node.JS, Prisma, Sendgrid, and AWS.
- Conceptualized and developed CloudDocs, a permission-based cloud filing system for office documentation using Svelte, Node.JS, Sequelize, and AWS, which organized company documentation, tracked expiration and renewal dates, and increased employees' access to resources by 61%.
- Developed CaterGo: a robust web application for inventory and reporting, streamlining request management, purchase orders, and synchronization of offshore locations with the onshore base warehouse products and inventory. Utilized Sveltekit, Node.js, Sequelize ORM, MySQL, and AWS to ensure efficient data handling and seamless integration.
- Managed application infrastructure using AWS server instances, microservices, and SMTP email services for 100+ employees.
- Implemented CI/CD -continuous integration and deployment, reducing existing deployment time by 73%.
- Fixed over 18,000 issues and bugs, including outages, user complaints, and IT-related queries. -Provided daily onsite and remote assistance to employees with desktop computers and software installation, configuration, and usability.

Internship & IT Support 04/2019 – 10/2019 **Adexfe, Nigeria**

EDUCATION

River State University, Nigeria 2016

Bachelor of Technology in Chemical & Petrochemical Engineering
