

FAISAL ARSHED

FULL-STACK ENGINEER

TechStack:

Languages & Frameworks: JavaScript, TypeScript, React.js, Next.js, Node.js, Redux, Python

Databases & Backend: PostgreSQL, MongoDB, Redis, GraphQL, REST APIs

Cloud & DevOps: AWS, Docker, Git, GitHub

Tools & Infrastructure: Elasticsearch, SMTP/IMAP, Cypress, Developer Tooling

Short Resume:

Position: Full-Stack Engineer with 5+ years of experience building enterprise web apps, SaaS platforms, and developer tools.

Skills: Strong in backend architecture, frontend frameworks, and DevOps integration. Experienced in developing MVPs, optimizing performance, and leading development cycles from design to deployment.

Experience: Led feature development for a Fortune Global 500 client's workplace experience platform at Smash Cloud. Built SaaS products from scratch including email infrastructure tools and CRM systems for U.S. and Canadian markets.

Motivation: Faisal is motivated by opportunities for professional growth, continuous learning, and personal development. He looks forward to contributing his skills in a dynamic environment while achieving long-term career & financial goals.
