JOSHUA HORSFALL

Fullstack Developer

Tech Stack:
Programming languages: HTML, CSS, JavaScript, Python
Frontend: Tailwind, Sass, Svelte-kit, React
Backend: NodeJS, RESTful APIs
Database Management: SQL (MySQL, PostgreSQL)
DevOps: Git, GitHub, GitLab, AWS, Vercel, IBM Cloud, CI/CD pipelines, Docker, Kubernetes

Short Resume:
Position: Full-Stack Engineer with strong leadership and project management experience
Skills: Proficient in front-end (HTML, CSS, JavaScript, Svelte-kit, React, Tailwind), back-end (Node.js, Python, SQL), and DevOps (AWS, Vercel, Docker, Kubernetes, CI/CD, Git), experienced in building user-focused, scalable web applications.
Experience: Led full-stack development and team coordination for cloud-based projects like clouddocs and tasks, showcasing a balance of technical and leadership strengths.
Motivation: Driven to create impactful, technology-driven solutions with a focus on real-world user needs and innovation.
