NICHOLAS AGWAH

FRONTEND DEVELOPER

TechStack:

Languages & Frameworks: JavaScript (ES6), TypeScript, HTML5, CSS3, SCSS, Java

Frontend: React (Hooks, Redux, Router), Angular, Next.js, Vue.js, Bootstrap

Backend & APIs: Node.js, REST APIs

Databases: MongoDB, PostgreSQL

Tools & DevOps: Git, GitHub, GitLab, Jira, Confluence, Webpack, ESLintShort

Resume:

Position: Frontend Developer with 5 years of experience designing responsive UIs and building scalable web applications using React, TypeScript, and Angular.

Skills: Expertise in modular component libraries, advanced data-table implementations (AG Grid), GDPR-compliant interfaces, and cross-browser compatibility. Solid testing practice using Cypress and a proven record of delivering within sprint timelines in Agile environments.

Experience: Currently at Teqbridge, Nicholas has delivered scalable UI modules with over 50 reusable components and achieved 90%+ test coverage for critical user flows. At Ark Technologies, he led full UI builds focused on responsiveness and user engagement.

Motivation: Nicholas is motivated to enhance his skill set, contribute meaningfully to a forward-thinking team, and grow professionally and financially within a stable and innovative environment.
