### Short Resume:

**Position:** Security Auditor & Engineer at Secure3.io (USA), specializing in in-depth audits of blockchain application code with a strong focus on security and reliability.

**Skills:** Proven expertise in auditing and securing smart contracts and blockchain systems, identifying vulnerabilities in Solidity, Go, and Rust; experienced in leading development teams and conducting advanced security research.

**Experience:** Contributed to major security audits at Secure3.io and Least Authority (Germany), securing over \$1B in digital assets. Recognized for leadership in both auditing and secure development practices across global teams.

**Motivation:** I want to move closer to the expert market of my field. This would open the door to a variety of opportunities for me.
