# PROMISE YEHANGANE

## Fullstack developer

**TechStack:**

**Programming Languages:** Python, Bash, Javascript, Ruby

**Frameworks:** Flask, Django, Ruby on Rails

Databases: MySQL, PostgreSQL, MongoDB, Redis

**CI/CD Tools:** Docker, Kubernetes, AWS, Travis CI, Circle CI, GitLab

**Version Control:** GitHub, GitLab, git, git-flow

## Short Resume

**Position:** Full Stack Developer with a strong focus on Python and cloud-native development. Experienced in building and deploying scalable microservices on AWS, designing APIs, and leading backend architecture using modern CI/CD tools.

**Skills:** Backend development with Flask, Django, and Rails; frontend using Angular and React; cloud orchestration via Docker and Kubernetes.

**Experience**: Engineered scalable microservices and APIs at Encode Junction, enhanced e-services platforms and telecom systems at Uganda Communications Commission, and improved IT infrastructure and support workflows at Concern for the Girl Child.

**Motivation:** is motivated to relocate to Germany by a strong desire to grow both personally and professionally through immersion in a new culture.
