BUILDING THE FUTURE!

SYED ALI HAIDER ZAIDI

PYTHON/BACKEND ENGINEER

TechStack:

Languages: Python, C++, SQL, Bash
Frameworks: FastAPI, Flask, Django REST, LangChain, PyTorch, TensorFlow
Cloud & DevOps: AWS, Azure, Docker, Kubernetes, GitHub Actions, Amazon EKS
ML & AI: NLP, LLMs, ASR, TTS, RLHF, Transformers, RAG, Recommender Systems, Signal Processing, Computer Vision

Short Resume:

Position: Python/Backend Engineer with 3+ years' experience in AI-powered systems, backend services, and data-driven platforms.

Skills: Proven track record integrating LLMs, building ASR/TTS pipelines, and deploying scalable microservices. Strong in backend development, cloud deployment, and AI research.

Experience: Worked on end-to-end ML pipelines and backend integration for companies like VisionX, Rayn, and Omno AI. Built personalized NLP systems, Retrieval-Augmented Generation pipelines, and activity recognition models.

Motivation: Syed is eager to take an active role in Germany's dynamic tech industry, where he can continue learning, contribute meaningfully to innovative projects, and grow a long-term career.

Starting in Germany:
After 6 - 8 Weeks

BlueCard eligible:
Yes

Starting Salary: €65,000
University degree:
MSc Physics, MSc Data Management & AI
English: Fluent (C1)
German: Basic (A1)
