WORK HISTORY

AWS Cloud Engineer, Remote (Contract)
PureMoto – California, United States
05/2022 - present

- Worked as AWS Cloud Engineer for PureMoto. Used AWS CDK to build Infrastructure as Code(IaC) services for PureMoto
- Created Weekly tasks on ClickUp Peer Programming with team members to troubleshoot bugs.

Backend Engineer, Remote (Contract)
Outliant – Austin, Texas, United States
01/2022 – 10/2022

- Worked on clients project for Outliant. Technologies used are Nodejs, PostgreSQL, DynamoDB, Creating AWS Lambda functions.
- Worked on a fintech project, eCommerce project. Created GraphQL and RestFul API

Backend Engineer, Remote (Contract)
Startupcraft. Miami, United States
10/2021 – 03/2022

- StartupCraft is a Blockchain, Web and Mobile app development company focused on building products and solutions for startups of any caliber and Enterprise companies.
- Worked on two projects simultaneously, project names are NetworkOS and Deep.
- Technologies used are Nodejs, Postgres, Websocket, Gremlin.Both projects were built on a graphql service layer.

PROJECTS

- ✓ Oda E-Commerce Platform
- ✓ Paginate-mongoose-data
- ✓ LigareApp
- ✓ Puremoto
- ✓ Relish Works

SOFT SKILLS

- ✓ Time Management and planning
- ✓ Team player
- ✓ Creative spirit
- ✓ Critical thinking
- ✓ Fast learner

Software Engineer,
Great Brand Nig Limited.

06/2019 – 01/2022

- I worked both on the backend and frontend of the ODA application. I contributed to the architecture of the whole engagement. We moved the architecture from monolith to micro service.
- I worked on the wallet system, and transaction API services. I worked on order(buying and selling) services. I created the development of the frontend admin dashboard using Angular 7.
- I worked with the QA to run regression testing and an e2e(end to end) testing. I pair programming with other engineers by fixing their bugs. I worked closely with the mobile(Android) engineers day and night to make sure it was a successful application.
- Created the API documentation using postman collections. Continuous Delivery and Testing of Applications with tools like supertest, expect.js, Git, Github, Circle CI.
- Perform code review for other engineers code before deploying to staging and production.

Software Engineer, Remote
Devcenter,

03/ 2018 – 04/ 2019)

- I Worked on Ligare architecture APIs. I made sure every endpoint is well tested and proper documentation is created using postman documentation.
- I took full ownership of the backend development and also support on the frontend(Angular). I worked thoroughly from home during the development of Ligare APIs. I created over 80 APIs

Other Roles:

– Software Engineer, Summitech Computing Ltd, (01/ 2017– 12/ 2017)

– Fullstack Engineer, Audax Solution, LCC. (08/ 2016 – 12/ 2017)

EDUCATION

- ✓ Brainstation: iOS Developer Diploma, 2021
- ✓ Lagos state polytechnic: National Diploma in Computer Science, 2015
- ✓ University of Kigali: Bsc in Computing, 2023–2026 (Ongoing)

CERTIFICATE

Honoring the journey to Germany

This certificate honors the journey

Kayode Ezekiel Adeyemi

as Software Engineer who has completed our fast journey process in preparation for his migration to Germany, and recognizes his hard work, perseverance, and dedication.

Date: 21/09/2023

English Communication:	**Strong** – validated in multiple rounds of 1:1 interviews
German Communication:	**Beginner:** Started A1 German class.
Technical Skills:	**High – & Up to date**: Certifications and working experience
EU 'Blue Card' Eligibility	Yes – started the anabin process.
University Degree:	National diploma (2015) in Computer Science
Motivation:	**High:** Passionate pursuit of further development.
Maturity	**Senior –level** – more than 7 years of work experience
Cultural fit	**High:** Preparation with video and coaching so that the candidate is well prepared to start in a team in Germany.

At Talents2Germany GmbH, we are dedicated to supporting software migration to Germany. As part of our services, we carefully filter and select the best candidates for the process. We recognize the hard work and dedication that these candidates demonstrate throughout the journey and are pleased to present them with a certificate of appreciation. This certificate is a testament to their commitment to excellence and their expertise in their craft. We are honored to bestow this certificate upon them and grateful for their contributions to our mission of facilitating software migration to Germany.

Making Germany work for software engineers!
